A screenshot of a digital drawing application window. The window title is "animales con formas geométricas". The interface includes a toolbar with various drawing tools like selection, eraser, and fill. The main canvas displays three simple line drawings of animal heads: a brown bear with a yellow snout, a blue cat with pink ears, and a yellow monkey with a brown face. Below each drawing is a horizontal line for labeling. The status bar at the bottom shows "4 945,477 pixels", "12 1000x 1077 pixels", and "28 1000x 1077". A signature "my free time" is visible in the bottom right corner of the canvas.
