## COMPRENSIÓN DE TEXTOS

I live in a house near the sea. It is an old, rusty house, about 100 years old, and it is very small. There are two bedrooms upstairs but no bathroom. The bathroom is downstairs next to the kitchen and there is a living room where there is a lovely old fireplace which keeps us warm during the windy winter nights. There's a garden in front of the house. The garden goes down to the beach and during spring and summer there are flowers everywhere. I live alone with my dog, Boxer, but we have a lot of visitors. My city friends often stay with me. I love my house for many reasons: the garden, the flowers in summer, the fire in winter, but the best thing is the view from my bedroom window; you can be mesmerized by the vast infinity of the ocean and its quiet atmosphere.
