

## SCIENCE REVIEW (March)

### Select true or false.

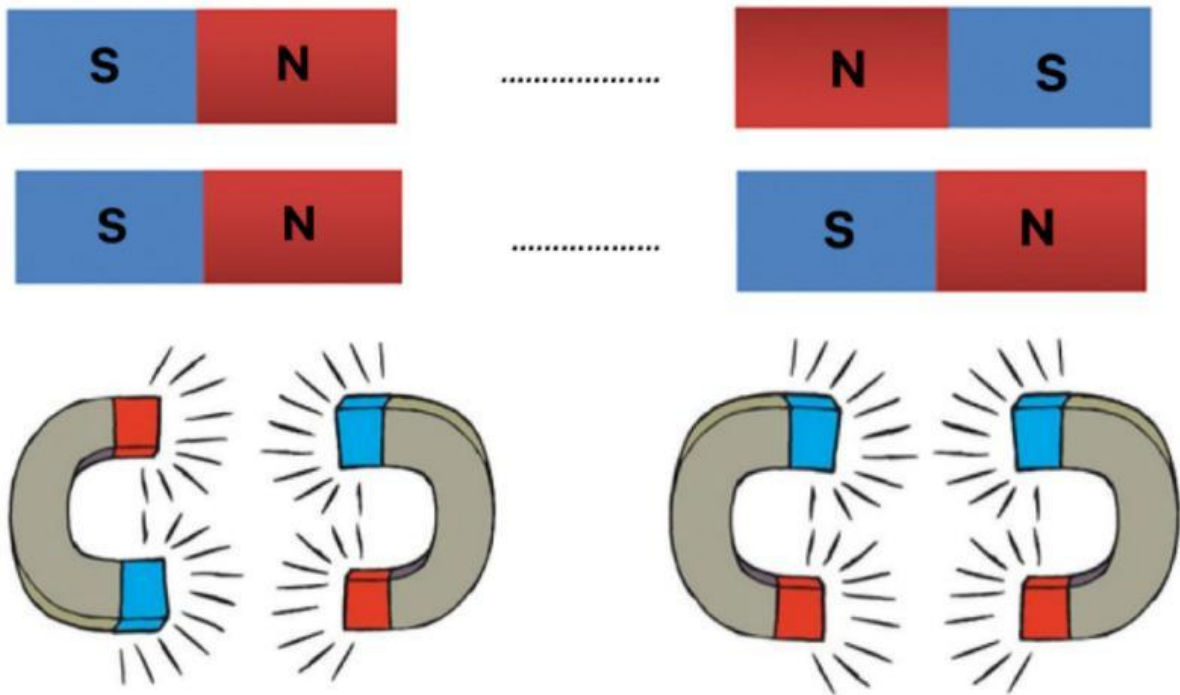

1. The pull a magnet exerts is called sound waves.	True	False
2. Same poles attract.	True	False
3. Flowering plants go through different stages.	True	False
4. The ladybug cycle has four stages; egg, larva, pupa, and adult.	True	False
5. A trait is a plant.	True	False
6. Opposite poles attract.	True	False
7. Inherited traits are traits passed down from parents to offspring.	True	False
8. The flower in the adult plant produces fruit.	True	False
9. Animals live forever.	True	False
10. Adult plant is the mature stage in a plant.	True	False
11. Magnets are made of metal.	True	False
12. Magnets have 3 poles.	True	False
13. Magnets have an area of magnetism.	True	False
14. The jalapeno cycle has 3 stages: seed, young plant, and adult plant.	True	False

### Select the correct option:

1. Area of magnetism around a magnet.

2. Pushing and pulling.
3. Speakers use magnets to send out.
4. Lets each kind of plant and animal continue living on earth.

**Select attract or repel for each pair of magnets.**

**Match the concepts with the correct one:**

Trait	Has its own particular life cycle.
Inherited Trait	Lets each kinds of plant and animal continue to live on earth.
Reproduction	Characteristics
Organisms	Passed down from parents to offspring.
