

Mount Kilauea, Hawaii, USA

Mount Kilauea is a famous volcano in Hawaii, USA. Mount Kilauea is one of the most famous and active volcanoes in the USA.

Mount Kilauea is not a very high volcano. It is about 1491m high. It is very flat (平的), so it is called a shield volcano. It has unique scenery (獨特的風景)

and many people go hiking around the volcano. But, they have to be very careful!

Mount Kilauea is an active volcano (活火山) and can erupt (爆發) at any time. The last big eruption was in 2023. The lava (岩漿) flowed slowly over the ground, and many houses were damaged (被損壞). No people died in this eruption, but many animals died.

Mount Kilauea is a very powerful and dangerous volcano!
