

Mount Popo, Puebla, Mexico

Mount Popo is a famous volcano near Puebla, in Mexico. Mount Popo is one of the highest volcanoes in Mexico.

Mount Popo is about 5939m high. It has many layers (地層), so it is called a composite volcano. It has unique scenery (獨特的風景), and many people go hiking around the volcano. But, they have to be very careful!

Mount Popo is an active volcano (活火山) and can erupt (爆發) at any time. The last big eruption was in 2023. The steam (蒸汽) and ash flew very high into the sky, but no houses were damaged (被損壞). Luckily, no people died, but many animals died.

Mount Popo is a very powerful and dangerous volcano!
