**Read the sentences (a-e) and look at the information below.
Decide if the sentences are true or false.**

- a** It seems that most people enjoy life in the countryside.
- b** It appears that very few people who live in a city would prefer to live in a rural area.
- c** The results from the first survey seem to suggest that most people are happy to stay in a rural area.
- d** On the other hand, the second survey would seem to show that most people who live in the countryside would prefer to move to the city.
- e** Older people are not believed to be as happy with city life as younger people. But there is little evidence in the surveys to back this up.

The results of two new surveys have just been published in which people living in rural and urban areas were asked about how happy they are with where they live. Below are some of the results.

	Survey 1	Survey 2
People who enjoy living in cities	79%	72%
People who live in a city, but would prefer	35%	43%

- a. The ideas describe the professor's personal opinion
- b. The professor's opinion taken from other people's ideas.
