Directions: Let's make a paragraph today.

You could write about the animals living on the island, like the monkeys and the snakes... or even unknown mythical creatures like dinosaurs. Think about the challenges or dangerous obstacles you faced like... eating poisonous berries or escaping hidden traps on the island. How did you survive on the island? What did you eat? Did you build your own shelter or find a cave to sleep in during the night? Did you find the person that sent you the message in the bottle? And how did you rescue them?
