

Earthquake

Choose the right tips.

Move away from windows and outside walls.

Stay in the building.

Use the elevators.

If you are trapped, stay calm.

Stay near display shelves containing objects that may fall.

Stay under a large table until a quake is gone.

Keep yourself safe from falling or moving objects during a quake.

If you are outside, go home as fast as possible.

Cover your head and neck

Don't hold on to your shelter
