

## Solving Absolute Value Inequalities Practice

Solve and graph each inequality. **Note:** use  $\leq$  for  $\leq$  and use  $\geq$  for  $\geq$

1.  $p + 5 \geq 20$

2.  $\frac{n}{7} - 9 < -11$

3.  $-6 \leq x - 3 < 7$

4.  $-25 < 6x + 5 < 47$

5.  $|n - 4| \leq 9$

Case 1:

Case 2:

6.  $|4 - 2x| > 6$

Case 1:

Case 2:
