

Repaso Situación 9

1. Completa y calcula el área.

$$A = \square \times \square = \square \text{ cm}^2$$

$$A = \square \times \square = \square \text{ cm}^2$$

$$A = \frac{\square \times \square}{\square} = \square \square$$

$$A = \square \times \frac{\square + \square}{\square} = \square \square$$

2. Calcula el área y el perímetro.

$$P = \square \square$$

$$A = \square \square$$

$$P = \square \square$$

$$A = \square \square$$

3. Calcula los A y el perímetro.

$$A = \boxed{} \text{ cm}^2$$

$$P = \boxed{} \text{ Cm}$$

$$A = \boxed{}$$

$$P = \boxed{}$$
