PART 3 Questions 14-18

For each question, choose the correct answer.

A popular teacher

Jane Bridges teaches teenagers in my school in Newcastle, in the north of England. Jane worked for a large international company in an office in London for many years before she changed her career. Although she earned a lot more money in London, Jane decided she was bored with her job and she was unhappy at work. Jane says that teaching is interesting every day and now she feels that she is doing something useful and important.

Jane thinks that her time as a successful businesswoman made her a strong person and this helps her in the classroom. She also remembers how difficult school was at times, when she was a teenager herself, and how tiring it could be to have to study every day.

Jane believes that using computers and the internet is the best way to make her students excited about our lessons. She discusses subjects that we are interested in and makes these things part of her lessons. By doing this, we don't feel that we are doing something difficult or boring but actually we learn a lot more.

All her students even send their homework to Jane by email and every class that she teaches has their own FaceBook group. Here students can chat about what we are learning and we can also share ideas. It is not surprising that Jane is one of the most popular teachers in my school.
