

Perímetro é a soma das medidas dos lados de um polígono.

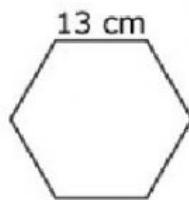

1 – Calcule o perímetro e marque a resposta certa:

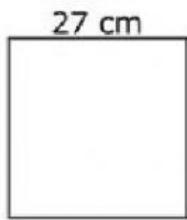

$$P = \dots$$

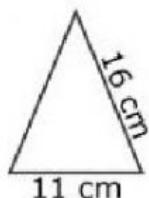

$$P = \dots$$

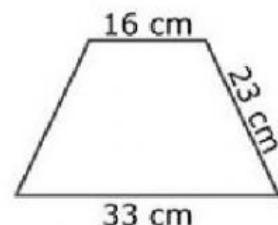

$$P = \dots$$

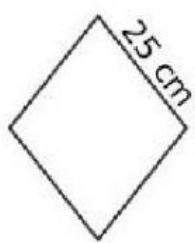

$$P = \dots$$

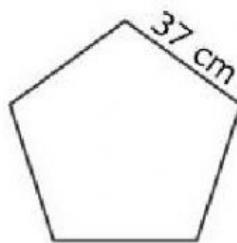

$$P = \dots$$

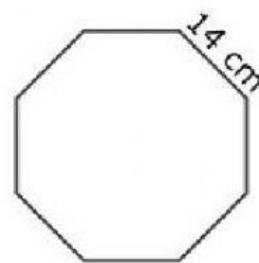

$$P = \dots$$

$$P = \dots$$

$$P = \dots$$

$$P = \dots$$

2 – Calcule e depois ligue cada personagem ao seu nome:

Hoje completo 5 trimestres.
Quantos meses tenho?

$$\underline{\quad} \times \underline{\quad} = \underline{\quad} \text{ meses.}$$

Tem 300 anos.
Chama-se Dino.

Hoje completo seis décadas.
Quantos anos tenho?

$$\underline{\quad} \times \underline{\quad} = \underline{\quad} \text{ anos.}$$

Tem 48 meses.
Chama-se Dulce.

Hoje completo 8 semestres.
Quantos meses tenho?

$$\underline{\quad} \times \underline{\quad} = \underline{\quad} \text{ meses.}$$

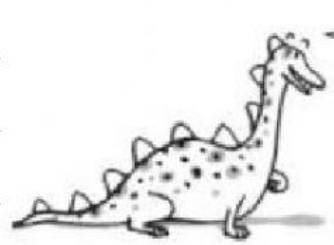

Tem 600 meses.
Chama-se Mariana.

Hoje completo 50 anos.
Quantos meses tenho?

$$\underline{\quad} \times \underline{\quad} = \underline{\quad} \text{ meses.}$$

Tem 60 anos.
Chama-se Valentino.

Hoje completo 3 séculos.
Quantos anos tenho?

$$\underline{\quad} \times \underline{\quad} = \underline{\quad} \text{ anos.}$$

Tem 15 meses.
Chama-se Pimpão.
