# IELTS WRITING- DISCUSS BOTH VIEWS

**Topic:**

Some people think that video games are advantageous, while others believe video games are harmful to the people who play them.

Discuss both views and give your opinion.

## INTRODUCTION

---

---

---

---

---

## BODY

**Đoạn 1:**

On the one hand, playing video games has some advantages ***(Topic sentence)***. Firstly, games help their players relax and therefore improve their work efficiency afterwards ***(Sub-idea 1)***. This is extremely important for both working people and students who have to deal with increasing workload nowadays ***(Supporting sentence)***. Secondly, playing games also has some educational purposes ***(Sub-idea 2).*** For example, many modern games are designed with English instructions, and players around the world can play together and communicate in English. This motivates players to learn English in order to play the games well ***(Supporting sentences)***.

.....

**Kết bài:**

- ⇨ In conclusion, playing video games is both advantageous and disadvantageous in many aspects. And in my view, the extent to which each user of video games is affected is different and more or less depends on how much time he or she spends on those games.
- ⇨ In conclusion, it seems to me that the disadvantages of video games are more significant than the advantages.
