This is a picture of people in a living room, I think. I can see **(a)** three people. There are **(b)** two children and in the middle there's **(c)** a women They look happy and relaxed. I think they're in a living room because they are sitting on a sofa. I can see **(d)** pictures behind them. The two children are probably teaching the woman to use **(e)** the computer or play **(f)** a computer game The boy is on the right of the picture. He's looking at the computer in front of them, not at the woman. The girl is on the left of the picture. She's looking at the woman. Maybe she's smiling at her because she's winning or learning very **(g)** well She looks a bit more **(h)** excited than the boy. Perhaps the woman is their grandmother.
