

# Project 121

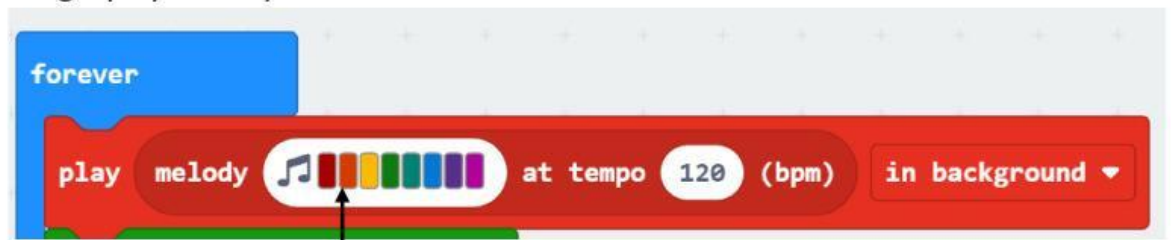

## Coding School

Start Here

- ❖ First drag a forever block.
- ❖ Drag a play melody block into that block.

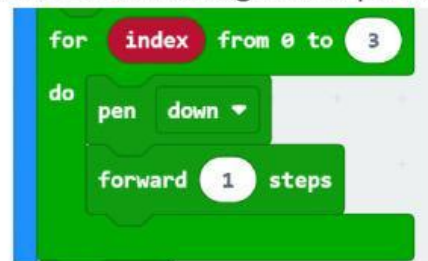

- Click on this. Click on the Scale under the Gallery shown there.

- ❖ Set the position to 0,2.
- ❖ Prepare to turn right.

- ❖ Set the code to move forward three times. It should be given as pen down.

- ❖ To turn left direction, prepare the code as below.

- ❖ Index 2 contains the numbers 0 to 5. Let's prepare the code to move the pen from 0.5 to five seconds.
  - Give the values included in index2 for X position and 2 for Y position.
  - Give the Brightness as 39.
