A. Save water is important for the environment.
B. Saving water are important for the environment.
C. Saving water important for the environment.
D. Saving water is important for the environment.

Question 2: Choose the correct answer.

The teacher was _____ because the children didn't do their HW.

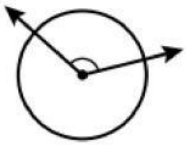

A. excited

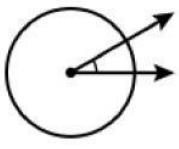

B. exciting

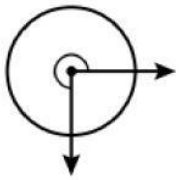

C. annoyed

D. annoying

Question 3: Which figure shows the amount of rotation is more than $\frac{1}{4}$ of a circle?

A. 

B. 

C. 

Question 4: Read and answer

Welcome to an ecosystem where it's really dry and hot. There's a lot of sand everywhere, like in big hills called dunes. You'll see plants like cacti with thorns to save water. Animals here, like lizards and snakes, are good at hiding from the sun. Birds fly high above, looking for food. Even at night, animals like foxes and scorpions come out to find things to eat. Water is hard to find, but everything here depends on it to survive. ***What ecosystem do you think we're talking about?***
