For more information, contact the Office of the Vice President for Research and Economic Development at 319-273-2500 or [research@uiowa.edu](mailto:research@uiowa.edu).

Now, let's start by seeing where you can go. As you can see on our map in the 1 I've given you, we are here, at the reception block. We have a 2 mill which is used for making and 3 materials such as 4 and coal. To visit it, just go straight ahead north along the path in front of you and you'll find it at the end of the path.

Now **5** the east, go along the path from our starting point. Turn left at the **6** and then turn right. There is a car park at the east end of the lane. To the west, there is a **7**. Pass the shop around the **8**, and it is just located at the west end of the road. And by the way, the shop is **9** in selling a variety of ore-related **10**, including keyrings, postcards, tin-made Lewis Chessmen, and even Roman Soldiers which are made from beautiful **11**.

If you are interested in the **12** analyses and research are **14** of the park, opposite of the shop. I bet you'll be happy to hear that this laboratory is also used for gold and crystal **16** for the **17** of it.

where scientific **13** out, it is situated at the **15** part

. So don't miss this one for

I assume by this time you'll all need some rest and **18** , so we have an **19** café which caters for **20** food and **21** at the other side of the road next to the shop. Of course if you want to spend some time in the fresh air, we have a **22** picnic area which is just right and northeast of the reception block. Further east there is a path **23** to the northern part of the park, and at the end of it is the toilet.

Now most of the visitors would choose to use the **24** and send the beautiful **25** to their friends. To reach it, just...
