Multiplication Tables of 1, 2 and 3

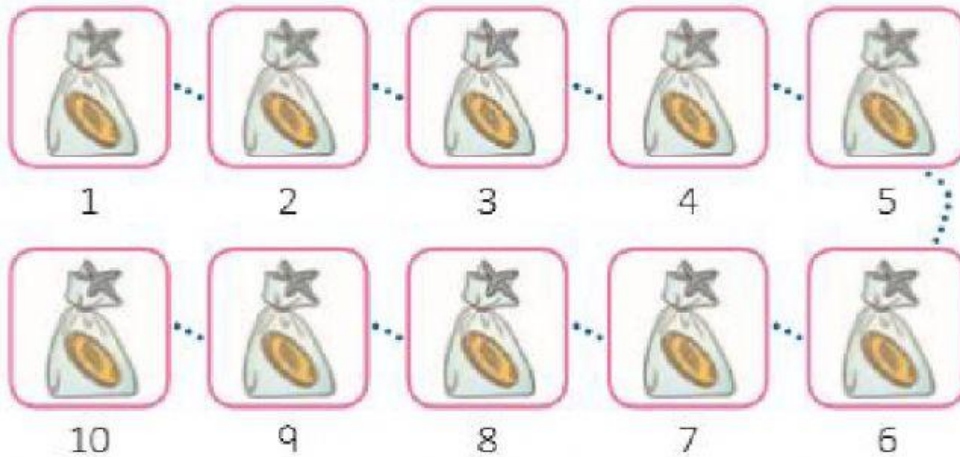

Let's Learn!

Multiplying 1: Skip-counting

1 There is 1 coin in each bag.

$$1 \times 1 = 1$$

How many coins are there in 10 bags?

$$10 \times 1 = 10$$

There are 10 coins.

I count in 1s.

- 2 Yati has 4 cups.
She puts 1 scoop of ice cream in each cup.
How many scoops of ice cream does Yati
have altogether?

$$\square \times 1 = \square$$

I count in 1s.
1, , 3,

Yati has scoops of ice cream altogether.

Let's Learn!

Multiplying 1: Using Dot Paper

1

Each bag has 1 sandwich.
How many sandwiches will 3 bags
have altogether?

$$3 \times 1 = 3$$

3 bags will have 3 sandwiches altogether.

- 2 Each girl has a bag.
How many bags are there altogether?

$$\text{ } \times 1 = \text{ }$$

There are bags altogether.

- 3 Complete the table.

Multiplication Table of 1

1	×	1	=	1
2	×	1	=	2
3	×	1	=	3
4	×	1	=	4
5	×	1	=	5
6	×	1	=	6
7	×	1	=	<input type="text"/>
8	×	1	=	8
9	×	1	=	<input type="text"/>
10	×	1	=	10

Multiplying 1 is easy.
Any number multiplied by 1
gives the number itself!
