Next, the mother goes with her son to buy some vegetables at the ² greengrocer's. They walk past the ³ butcher's because they don't want any meat today. The father and their daughters buy some bread at the ⁴ baker's. The parents like to read the Saturday newspapers, so they go to the ⁵ newsagent's.

Next, the family decides to go to Oxford. They're hungry, but they don't want to go to a restaurant. So, they go into a ⁶ sandwich shop to buy something for lunch. Next, they go to the ⁷ department store, with lots of different shops in it. So this place is good for everyone.
