

Biome Organism Matching Game

On this worksheet are lists of biomes and pictures of many organisms, including animals, plants, fungi, and algae. Draw a line from the organism to the biome(s) in which they are found. Keep in mind that some can live in more than one biome.

In the oval, label whether each organism is an animal (A), plant (P), fungus (F), or alga (G). Some might fit into more than one category. Good luck!

To learn more about the organisms in each biome, visit the webpage [askabiologist.asu.edu/explore/biomes]

Tropical Rainforest

Temperate Forest

Desert

Tundra

Taiga

Grassland

Savanna

Freshwater

Coastal Ocean

Open Ocean

Strangler Fig

Cheetah

Tropical Rainforest

Tortoise

Temperate Forest

Acacia Trees

Desert

Lichen

Starfish

Tundra

Sloth

Taiga

Pileated Woodpecker

Grassland

Reeds

Coral

Savanna

Plankton

Vicuña

Freshwater

Baobab Trees

Coastal Ocean

Conifer Trees

Open Ocean

Beaver

Water Lillies

Biome Facts Matching Game

On this page there are lists of biomes and facts. Draw a line from each fact to the biome(s) to which it applies. Keep in mind that some facts are true for more than one biome. Good luck!

To learn more about biomes, visit the webpage [askabiologist.asu.edu/explore/biomes]

Very little rainfall, dry air

Tropical Rainforest

Frequent wildfires

Only two seasons: wet and dry

Temperate Forest

Over half the Earth's plants & animals are found here

Desert

Very mild climate

Tundra

The land has little or no large trees

Taiga

Parts of the ground have permafrost all year long

Grassland

Covers 45% of the Earth's surface

Savanna

Has very long, cold winters

Freshwater

Water has very high salt concentration

Coastal Ocean

A transitional biome

Open Ocean

Water has very low salt concentration
