T if the sentence is true, or F if the sentence is false.

my friends and I

I am Meg. I am 10 years old. I live in UK with my family.

I like baseball. I play with my friend, Marek. We like to play at the sports centre: there is a great baseball field, with banks for our family to sit down. We train together on Tuesdays and Thursdays.

This is my friend, Emma. She likes climbing in the nature. On Wednesdays, she goes to a climbing centre. Marek and I go to see her, but we do not like climbing. We prefer sports with a ball. We like to run, to kick the ball and to be part of a team. We are birds of a feather.

But there is one sport for the three of us: we like ping pong. We play at parties and at school. We have fun together!

☐

Marek and Emma like baseball.

☐

Meg and Marek like the school's baseball field.

☐

Marek, Meg and Emma like table tennis.

☐

Meg is more similar to Marek than to Emma.

☐

Emma does not like to run or to kick a ball.
