

FILL IN BLANKS LISTENING - APRIL PREDICTION 2

#256 Kashmiri Tim

Two decades ago, Kashmiri houseboat-owners rubbed their hands every spring at the prospect of the annual influx of From May to October, the hyacinth-choked waters of Dal Lake saw flotillas of vividly painted Shikaras carrying Indian families, boho westerners, young travelers and wide-eyed Japanese. Carpet-sellers their skills, as did purveyors of anything remotely embroidered while the house boatsby the British Raj provided unusual accommodation. Any foreigners venturing there risked their, proved in 1995 when five young Europeans were kidnapped and murdered.

#247 Burial

So between 4,000 and 3,000 BC the Mesopotamian Samarian cultures do not any kind of burial. And then, about 3,000, in the early Dynastic Period, these burials start to reappear, and they reappear with a certain amount of consumption, and this is the context for the royal burials at Ur. OK, so, the royal consists of quite a number of pits, so these are the workers who are coming down into the pits. So you get some sense of how really deep and how really difficult it was to construct these

#245 Green Chemistry

Green chemistry is a concept designed to develop which allow chemistry to be practiced with minimal damage to the environment or in an environmentally way. And it's meant to cover both chemical processes and chemical The center, if you would, set up about seven or eight years ago, and the idea was to provide a hub of activities that covered research work, industrial collaboration, but also educational developments. So we work with schools and on public projects as well, and also networking. So we network out to well over 1000 people around the globe.

#244 Life on Mars

The thing that makes it difficult is because even if life had evolved on Mars, the chances of being preserved are very small. If we use Earth as a and our planet is teeming with life, yet it rarely preserves evidence of life of the fossil record. And the focus now is on exploring for environments. If you're looking for water, a of energy, either solar energy or thermal energy or chemical energy, and then carbon, assuming life as we know it on Earth based on carbon. So those are sort of the three things that we're looking for in the course of our mission.

#242 Library Catalog

In this tutorial, we will show you how to find specific journal articles using the library catalog. The university..... to over 18,000 journals across a variety of subjects, most of which are available to find a specific journal article using a library catalog. We need to by the journal name as individual article titles are not in the catalog.
