- 4 Can you explain how mime works as therapy?

- 4 Read the whole article and say whether the statements (1–7) are true (T), false (F) or if no information is given (NG).

- 1 The visual effects that mime artists use are an important part of the message.
- 2 It's not possible to communicate emotions clearly without words.
- 3 Mime was used in education before it was used in therapy.
- 4 In educational situations, both watching and doing mime are effective.
- 5 Children become more confident generally after mime therapy.
- 6 Mime therapy is more effective than simple physical facial exercises.
- 7 Mime therapy is used around the world for people with emotional problems.

### The faces behind the festival: mime

This week sees the return of the London International Mime Festival, which is the longest running event of its kind in the world. Featuring mime, circus, clowns and more, the festival started in 1977. We take a look behind the scenes and discover that there's more to mime than just entertainment. Our guide is Elise, a drama therapy teacher from Paris.

Elise, to most people mime means entertainers with painted white faces, dressed in black in silent performance.

Yes, mime artists like Marcel Marceau, that's right. Mime is really the art of telling a story, communicating with your audience, without words.

So we use make up and costumes that help us to tell the story more clearly, by emphasizing our expressions and movements

[a] \_\_\_\_\_

Obviously, when you don't use words, you have to develop a different kind of language. We do this with exaggerated gestures and facial expressions. Through these, we can express emotions, situations, stories and messages that can be dramatic as well as comic. A good mime artist understands what is involved in communication in great detail and depth – much more than simple verbal communication.

[b] \_\_\_\_\_

Of course. Mime is often used as part of general drama classes both in education and in therapy. It works in two ways – having people observe mime and getting them to perform it, too. Mime is a tool that can be incredibly positive for both kids and adults.

To give you an example, there are children who have difficulty with verbal expression. This may be the case in people with Down syndrome. It's amazing to see how these children's confidence can grow as they start to perform mime, and indeed perform more and more complex mime pieces. Parents of these children report that their kids take this confidence out into their everyday lives, it's not only something which happens in the classroom setting.

[c] \_\_\_\_\_

Yes, that's right, it can. Mime is beneficial for people who have limited movement in their facial muscles – this can be because of illness or accidents. Because of the exaggerated facial movements in mime, it's actually useful physical therapy for these patients.

This type of mime therapy was developed in the Netherlands in the 1970s. In some countries, it's called neuromuscular retraining. A simple example of how this works would be encouraging a patient to think of something that makes them happy while they are simultaneously trying to practise smiling. Combining emotion with the physical exercises is much easier and more natural, and gets better results.

[d] \_\_\_\_\_

Well, in the United States, mime has also been used with people who have been through difficulties and trauma in their lives. People can connect with a mime artist in a way that they don't when they try 'talking therapies' like counselling. Mime really seems to unlock people's emotions in some way that helps them deal with painful issues. Nowadays, this therapy is an accepted approach in the field of art therapy. There really is a lot more to mime than meets the eye.

### Grammar

#### Present forms

Hi Alex  
Thanks for sending your ideas for our project on languages in Europe. You've <sup>1</sup>\_\_\_\_\_ some great suggestions. I suppose the next stage is to <sup>2</sup>\_\_\_\_\_ some of the topics to find out more. As I understand it, we have to talk about real places, we can't <sup>3</sup>\_\_\_\_\_ things <sup>4</sup>\_\_\_\_\_. One thing that <sup>5</sup>\_\_\_\_\_ in our discussion yesterday was how to do our presentation. We need to find a way to <sup>6</sup>\_\_\_\_\_ the information <sup>7</sup>\_\_\_\_\_ really clearly – maybe with a map? What do you think? Finally, I just need to <sup>8</sup>\_\_\_\_\_ an error in the schedule – the 16<sup>th</sup> should be the 26<sup>th</sup>! Sorry!  
See you  
Fran

make up / it

get across / your point  
point out / them

Hi Fran

What did you think of the meeting this morning?

Wow! When everybody talks at once, it's hard to

<sup>1</sup> \_\_\_\_\_. To be honest, I thought that there were a lot of problems with the plan – I'm glad you

<sup>2</sup> \_\_\_\_\_. Well, we'll see what happens next.

But with so much to do, we need to <sup>3</sup> \_\_\_\_\_.

Oh, by the way, what about David? I thought his excuse was ridiculous – do you think he

<sup>4</sup> \_\_\_\_\_?

Best,  
Alex
