**1** **Look and tick (✓) the correct picture.**

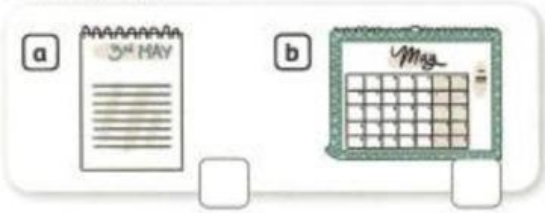

1 stone circle

2 standing stones

3 calendar

4 measure

5 meeting place

**2** After you read **Read and circle the correct answer.**

1 There are about 130 / 1,300 / 13,000 stone circles in the UK.

2 Stone circles are very old. Some circles are over 2,000 / 5,000 / 6,000 years old.

3 You can find stone circles all over the sea / the country / the world.

4 The Castlerigg stone circle is in the north / south / east of England.

5 At Stonehenge some of the stones came from Wales, 240 / 350 / 400 kilometres away.

6 Some people say the circles were ancient houses / towns / markets.

**3** **Create your own stone circle on a piece of cardboard. Use small stones, modelling clay or cork. Then write. Present your stone circle to the class.**
