

# EARTH DAY

Read the text. Then answer the questions.

Today, the 22nd of April, all the children from the world, we have celebrated earth day. In this day, we have gone out, we haven't used the car in order to avoid pollution, we turned off the lights because we didn't need them. We only turned on the water if we really need it and we have recycled in order to help our nice planet. Today we have also enjoyed the day going to the camp, we went on foot and there we ate and when we finished, we took everything and we have recycled it. Because of this, for this reason we must remember the 3R rule, reuse (to use something more), reduce (to reduce something is to use something less) and recycle. I think a better planet could be possible if everybody does this everyday.
