Use the following object to create **3 orthographic projection** views.

The 3 views are:

- ⊙ **Top view**
- ⊙ **Front view**
- ⊙ **Side view**

| Top view |
|----------|
|          |

| Front view |
|------------|
|            |

| Side view |
|-----------|
|           |
