interacting of allow surprising

In a recent survey, Tech News asked young people to predict how they will talk to each other in 30 years' time. The results are not (35) _____. Only 10% of the respondents think people will still send letters and postcards to each other by 2050. About 30% think holography and telepathy technologies will (36) _____ them to communicate in real time with their friends. Most people say that they will connect through super smart devices instead (37) _____ in person. Meanwhile, more than half of the respondents express their concerns about future communication. They say that if children spend most of their time (38) _____ on the Internet, they may also not be able to communicate face to face very well in 30 years.

II. Read the passage and do the following requests.

The Invention of the World Wide Web

Sir Tim Berners-Lee, an English computer scientist, invented the World Wide Web in 1989. At first, he wanted to develop a web for scientists around the world to share information and the results of their experiments. At that time the Internet already existed. But he created a way to use the

Internet to link documents to each other. Soon, he turned it into a free space for people to share knowledge, communicate, and cooperate.

The World Wide Web allows people to get all kinds of information online. The information can be images, videos, or files. It has become a significant tool for everyone, from scientists, researchers to young students as well. Scientists and researchers can share their study results, students can use it for learning or doing research online. Businesses even use it to advertise their products and to do business. Everybody can use the World Wide Web to watch videos, communicate, and attend meetings.

A. Write T(True) or F (False) in the following sentences.

	TRUE	FALSE
39. Tim invented the World Wide Web in 1999.		
40. He devised a method for linking documents to each other using the Internet.		
41. People can access a variety of information online through the World Wide Web.		
42. Only scientists, researchers and businessman can use the World Wide Web.		

B. Answer the questions.

43. Who is Tim Berners-Lee from?

⇒ _____

44. What do businesses use the World Wide Web for?

⇒ _____

E. WRITING

Rewrite the sentences without changing their meanings.

45. Last year, two of our classmates won scholarships to the US.
