Science

Dear diary,

Today was a great day. In the morning, I went to the beach. I found a pretty shell. It was sunny and hot, but I didn't swim.

In the afternoon, my mother took me to the museum. There they talked about volcanoes. Volcanoes erupt and you can see lava. Lava is very hot. Volcanoes are interesting! We went to the gift shop and bought some postcards.

At night, my mother and I went to the beach and looked at the stars.
