

## Ficha 4: Número Racional

1) Arrastra cada gráfico con su fracción correspondiente

2) Une con una línea la fracción con su representación gráfica

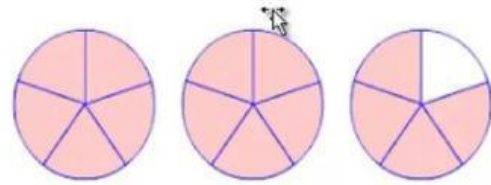

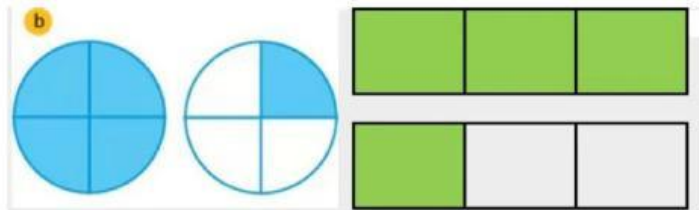

$$\frac{1}{3}$$

$$\frac{1}{5}$$

$$\frac{1}{2}$$

$$\frac{1}{4}$$

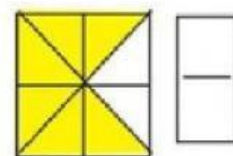

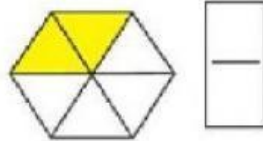

$$\frac{4}{3}$$

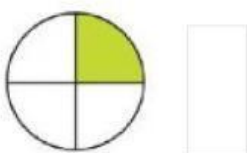

$$\frac{5}{4}$$

$$\frac{14}{5}$$

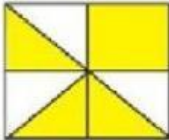

3) Observa, completa y reconoce el numerador y el denominador de cada gráfico

4) Escribe la fracción que representa la parte sombreada de la figura y una fracción de la superficie no sombreada.

| Figura                                                                            | En cifras                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                      |
|-----------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                   | Parte sombreada                                                                                                                                                                                                                                      | Parte no sombreada                                                                                                                                                                                                                                   |
|  | <div style="border: 1px solid black; width: 40px; height: 60px; margin: 0 auto; position: relative;"> <div style="position: absolute; top: 50%; left: 50%; transform: translate(-50%, -50%); border-top: 1px solid black; width: 80%;"></div> </div> | <div style="border: 1px solid black; width: 40px; height: 60px; margin: 0 auto; position: relative;"> <div style="position: absolute; top: 50%; left: 50%; transform: translate(-50%, -50%); border-top: 1px solid black; width: 80%;"></div> </div> |
|  | <div style="border: 1px solid black; width: 40px; height: 60px; margin: 0 auto; position: relative;"> <div style="position: absolute; top: 50%; left: 50%; transform: translate(-50%, -50%); border-top: 1px solid black; width: 80%;"></div> </div> | <div style="border: 1px solid black; width: 40px; height: 60px; margin: 0 auto; position: relative;"> <div style="position: absolute; top: 50%; left: 50%; transform: translate(-50%, -50%); border-top: 1px solid black; width: 80%;"></div> </div> |

5) Escribe con números las fracciones mencionadas:

a) tres quintos =

b) dos décimos =

c) cinco novenos =

d) once doceavos =
