The diagram shows a cross-section of the Earth's atmosphere, divided into five layers. From bottom to top, the layers are: Troposfer (containing clouds and a jet airplane), Stratosfer (containing a hot air balloon), Mesosfer (containing a meteor), Eksosfer (containing a satellite), and Termosfer (containing a rocket). Each layer is labeled with its name in Indonesian. Below the diagram, there are five empty boxes for labeling the layers, connected by dashed lines to the corresponding layers. At the bottom of the diagram, there is a list of the five layers in Indonesian: Eksosfer, Troposfer, Mesosfer, Stratosfer, and Termosfer.
