

Let's Go "Number Two"

People don't like poop, but some poop is **useful**. For example, we can make paper with elephant poop. Then, what can we do with **human** poop?

A special kind of bus runs in England. People call it the "Bio-Bus," or the "Number Two Bus." "Number Two" can **mean** poop in English. The bus gets **power** from **garbage** and human waste. It can run about three hundred **kilometers** . **In other words**, the bus can go from Taipei to Tainan with a **tank** of **gas** from human waste.

Bio-Buses are good for the Earth. **Believe** it or not, these buses are not **stinky** at all. Let's all go "Number Two."
