Giraffe

Giraffe is the highest animal in the world. Its height can reach 4.8 to 5.5 meters and its weight about 1360 pounds. Giraffe has a unique characteristic. They have a very long neck and two small horns on its head. Giraffes have big brown eyes and protected by thick and long eyebrows. Her body is covered with a unique pattern that is attached by brown spots all over their body.

LIVEWORKSHEETS

Just like camels, giraffes can survive without drinking for long time because giraffes can rely on the water contained in leaves they eat. Giraffes are very selective in choosing food. They always eat young leaves that grow in the tree tops. Their tongue shaped like a knife help them to cut branches which are very hard.

Female giraffes can start pregnant at the age of five years, with a gestation period of 15 months. Commonly female giraffe bear one baby, but sometimes two babies at once. Giraffes bear its baby with a standing position. When the baby is about to be born, they just drop it to the ground from a 1.5 meter of height. Baby giraffe can stand with about 20 minutes since being born, and begin breastfeeding within an hour of birth.

How To Use A Toaster

How To Use A Toaster

Sometimes in the morning we want to enjoy some fresh and crispy bread.
The simplest way to do so is by using a toaster.
With toaster we can lightly cook slices of bread and make it tastier.
Here is step by step of how to make delicious bread by using toaster.

- Insert a slice of bread into each toaster slot.
- Choose the toasting level, usually it is from the lightest to the darkest. This will allow you to choose how dark the toast to be.
- Wait until the toasting process finished, usually the process only takes a minute.
- Pick the bread when the toasting process is finished and the bread pops up from the toaster slot. Then put it on a plate.
- Pour some sugar on the bread while it is still warm or put some butter on it.
- The toasted bread is ready.
