PART C: READING Choose the correct answer to complete the passage.

Three ways everyone can help make the Earth a greener place is to reduce, reuse, and recycle! When people reduce it means they are using less of something. This allows us to create less waste. Turning off the faucet when we brush our teeth is a simple way to reduce. This is a small action that prevents us from wasting (31) _____Another small action people can take is to reuse things we already have. Taking bags to the store (32) _____we shop for food is one way to reuse them. Using both (33) _____of piece of paper before getting a new one is another way to reuse. (34) _____is when new materials are created from old ones. Paper, plastic, and metal are all materials that can be recycled. Things like newspapers, soda cans, and plastic bags can all be turned (35) _____new objects if we take the time to recycle them!

31. A. energy B. electricity C. water D. time

32. A. when B. what C. how D. where

LIVEWORKSHEETS

33. A. ways	B. sides	C. parts	D. points
34. A. Reusing	B. Reducing	C. Recycling	D. Reacting
35. A. out	B. up	C. down	D. into

II. Read this passage carefully, then choose the correct answers.

Technology will allow homes in the future to be "smart." Appliances will communicate with each other - and with you. Your stove, for example, will tell you when your food is cooked and ready to eat. Refrigerators will suggest recipes based on food items you already have.

Futurologists predict that many homes will have robots in the future. Robots already do many things such as building cars and vacuuming floors. But scientists today are starting to build friendlier, more intelligent robots that will be able to show feelings with their faces, just like humans. These robots will do work around the house such as cooking and cleaning. They will even take care of children and the elderly. How soon will this smart home be a reality? There's a good chance it will be a part of your life in 25 or 30 years, perhaps sooner.

- recipe (n): công thức nấu ăn *futurologist (n): nhà tương lai học*

36. What will make future houses smart?

A. Technology B. Computers C. Humans D. Scientists

37. According to the passage, the fridge of the future will be able to _____

A. keep food fresher and lasting longer. B. tell you it's time to buy more food.

C. give instructions on how to cook something. D. look out for out-of-date food.

38. Robots nowadays are widely used in _____

A. house building B. car manufacturing C. public transportation D. communications technology

39. Scientists are building robots that can _____

A. help take care of elderly people. B. do all household chores.

C. show feelings with their faces. D. all are correct.

40.Which of the followings is NOT mentioned in the passage?

A. Homes will be smart in 25 or 30 years time.

B. Smart appliances will be able to communicate with you.

C. So far robots have already done many things.
