##### Rabbits

When you go for a walk in the forest or countryside and move quietly you sometimes see a rabbit.

These funny little animals have long ears and brown, gray or white bodies. They have strong legs but they can't run. They hop, like kangaroos, from one place to another. When they are hopping, it's easy to see their small white round tails.

Rabbits sleep in the rooms under the ground and only come up for playing and finding food. A rabbit home also has lots of tunnels and some rabbit holes to go in and out. It keeps rabbits warm, dry and safe from enemies.

Rabbits don't eat meat. They eat grass and vegetables. Some families have a pet rabbit that lives in their garden. Does yours?
