SCIENCE - FOURTH GRADE

RELATE EACH OF THE IMAGES WITH THE PROBLEM

	POLLUTION
	CHEMICAL WASTE
	GLOBAL WARMING
	DEFORESTATION
	MELTING ICE CAPS
	POLLUTED RIVERS
	FACTORY
	RECYCLING BINS

MATCH THE ENVIRONMENTAL PROBLEM TO THE SENTENCE

Industrial emissions, exhaust from cars	What you do need. Choose products with less packaging and purchase in bulk when possible	The planet's temperature is rising
Humans can cause a species to become invasive when they force it into an ecosystem that is not their own	What you cannot refuse, reduce or reuse. Remember recyclables should be empty clean & dry	Loss of soil caused by the removal of vegetation from any given area.
Cutting down of large forest areas	Animals and plants are losing the places they live in because of deforestation, construction of factories, houses and roads, and cultivations of crops.	What you don't need. Say no to anything single-use. THINK REUSABLE
Pesticides and toxic chemicals	Anything that you can. Repair. Repurpose. Invest in items that can be used more than once.	Sea levels are rising
