

My Holiday

My summer holidays are often boring, but this time I had a blast! We went to visit Canada; it was our first time there. Since we were _____ we had to hire a _____. The tour guide talked to us about Canada's _____. I mean, she told us everything about what they eat, what they do with their friends, and what their homes are like! We wanted to go _____ and make a _____ but it was too cold to sleep outside, so we rented a _____, these little houses are made of wood, and are warm and cozy. We also wanted to rent a _____, this is like a little boat, but the lake was frozen. Instead, we went _____, even though there was a lot snow we were able to go up the mountain. Being up there I just thought "Wow! This is _____! I love it." Before we went back home, we also flew to Montreal to visit a big _____, it was beautiful at night, all that water with lots of different colors! It was awesome! I bought a little _____ at each place to remember this trip.
