Margaret Knight ⁽¹⁾ _____ a machine in 1871 to create paper bags with a flat bottom. But then, a man named Charles Annan ⁽²⁾ _____ the invention was his. Annan said that a woman ⁽³⁾ _____ invent this kind of machine. But Knight ⁽⁴⁾ _____ all of her drawings of the invention and her plans for people to see. Annan had nothing to show. That way people could see that the true inventor was Knight.

Margaret Knight ⁽⁵⁾ _____ inventing things and started a business. She invented many things and proved she was a real inventor.

Tick (✓) the best title.

- 1 Annan and his flat-bottomed paper bag
- 2 The curious story of an invention
- 3 Why a paper bag has a flat bottom
