

Indica uniendo con una flecha cada punto de color con el lugar al que se pueden llevar los RAEE dependiendo de quien seas en cada caso.

The diagram illustrates the sorting of Waste Electrical and Electronic Equipment (RAEE) based on the user's role. It features five main elements, each with a colored dot for identification:

- Comercio** (Commerce): Represented by a shop icon with a red dot.
- Usuario profesional** (Professional user): Represented by a factory icon with a green dot.
- Punto limpio** (Clean point): Represented by three recycling bins (green, blue, red) with a purple dot.
- Usuario** (User): Represented by a person icon with a blue dot.
- Centro de tratamiento** (Treatment center): Represented by a photograph of a large industrial facility with a yellow dot.

Arrows are intended to connect these colored dots to their corresponding destinations for RAEE disposal.
