12. If he (have) ..... a temperature, he (see) ..... the doctor.
13. If my friends (come) ....., I (be) ..... very happy.
14. If she (earn) ..... a lot of money, she (fly) ..... to New York.
15. If we (travel) ..... to London, we (visit) ..... the museums.

LIVEWORKSHEETS

Task 3: Read and answer the question.

Read and answer the questions.

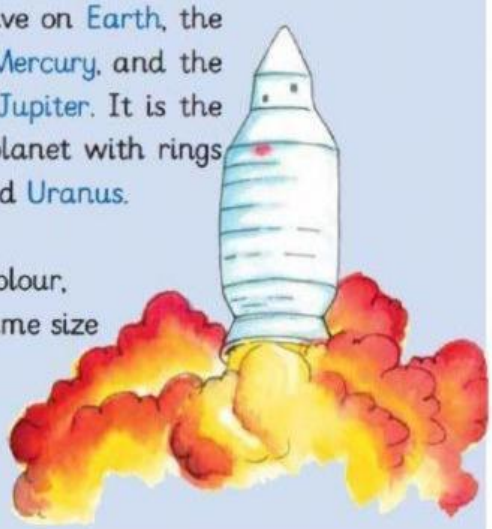

Our Solar System

There are eight planets which go around the Sun. These eight planets and the Sun are called the Solar System.

The eight planets are different distances from the Sun. We live on Earth, the third planet from the Sun. The nearest planet to the Sun is Mercury, and the furthest planet is Neptune. The fifth planet from the Sun is Jupiter. It is the biggest planet in the Solar System. After Jupiter, there is a planet with rings called Saturn. The planet between Saturn and Neptune is called Uranus.

Our planet, Earth, is between Venus and Mars. Mars is red in colour, so it is sometimes called the 'Red Planet.' Venus is about the same size as Earth. It is the hottest planet in the Solar System.

34

How many planets are in our solar system? _____ on the earth

Which planet is called the red planet? _____ 8 planets

Where do we live? _____ Venus

What is the fifth planet from the sun? _____ Jupiter

What is the furthest planet? _____ Mars

What is the hottest planet? _____ Neptune
