Culture Heritage of Aceh should be Preserved

Aceh has many of cultures that must be preserved, one of them Aceh's culture heritage, each of it has historical. Why we as the young of Aceh land do it?

According to research, Aceh has many historical remains from previous Islamic kingdoms. Such as ancient mosques, tombs with various styles of tombstones, manuscripts, old buildings, ceramics and other objects are objects that are quite often found. This cannot be separated from the history of several kingdoms in Aceh such as the Kingdom of Lamuri, Perlak, Pedir, Samudra Pasai, Kingdom of Aceh Darussalam. Some of these relics have been damaged.

If it's not protected and preserved will experience destruction and lost. There will be a lot of ignorance among the young generation of Aceh about historical heritage so that Acehnese children will be easily influenced by western culture and ignore their own culture.

From the facts above, The Aceh Culture and Tourism Service through the History and Cultural Values Division should add more custodians of Cultural Heritage Sites in Aceh who has well trained. As the young generation of Aceh, we must read a lot about Acehnese culture so that we can take part in preserving cultural heritage to advance Acehnese culture.
