LIVEWORKSHEETS

B   **Match the extracts (a–e) to the correct sections of the report.**

a)   It was generally felt that productivity is being reduced due to the misuse of the e-mail system. This therefore indicates that a written policy is urgently required.

b)   This report will look at current e-mail usage and the reasons why an e-mail policy is needed.

c)   E-mail is a highly cost- and time-effective means of communication but incorrect use, such as unfocussed use and personal use, can reduce productivity. It was decided that in order to correct this situation, a policy should be implemented to remind staff of the company's right to read any e-mail if it is suspected that the system is being misused.

d)   Employees should be made aware that the company does have a legal right to open and read their e-mails if they think the system is being misused. The policy should be short, clear, concise and easy to understand.

e)   A number of issues have been raised. Firstly, staff complain about the amount of time they spend reading unnecessary e-mails. In addition, some staff send personal e-mails or use social networking sites during working hours.

REPORT ON PROPOSED E-MAIL POLICY

26   Executive summary _____

27   Introduction _____

28   Findings _____

29   Conclusions _____

30   Recommendations _____
