

## Analytical Exposition Text Part 1 of 3

Text 1 . Cars should be banned in the city

Cars should be banned in the city. As we all know, cars create pollution, and cause a lot of road deaths and other accidents.

Firstly, cars, as we all know, contribute to most of the pollution in the world. Cars emit a deadly gas that causes illnesses such as bronchitis, lung cancer, and ‘triggers’ of asthma. Some of these illnesses are so bad that people can die from them.

Secondly, the city is very busy. Pedestrians wander everywhere and cars commonly hit pedestrians in the city, which causes them to die. Cars today are our roads biggest **killers**.

Thirdly, cars are very noisy. If you live in the city, you may find it hard to sleep at night, or concentrate on your homework, and especially talk to someone.

In conclusion, cars should be banned from the city for the reasons listed.

1.Cars has to be banned because ....

- A. They create polluted water.
- B. They caused a lot of accidents.
- C. They make us easy to go
- D. They are expensive.

2. Car produces....

- A. A deadly virus.
- B. Some deadly diseases.
- C. Undeadly illnesses
- D. Sudden emission.

3. The synonym of killer is....

- A. Murder
- B. Watcher
- C. Seller
- D. Pointer

4. The main idea of the fourth paragraph is....

- A. Car is not noisy.
- B. It is difficult to sleep at night.
- C. It is easy to concentrate on work.
- D. Living in the city with cars surrounding is not easy.

Text 2. Is smoking good for us?

Paragraph 1

Before we are going to smoke, it is better to look at the fact. About 50 thousands people die every year in Britain as direct result of smoking. This is seven times as many as die in road accidents.

Nearly a quarter of smokers die because of diseases caused by smoking.

Read paragraph 1 and answer the following questions

5. People die ..... yearly in Britain.

- A. 50
- B. 500
- C. 5000
- D. 50.000
