

Josh Gilligan

Song: Something, Nothing, Everything

Complete the blank spaces with the words you hear.

[Verse 1]

The man by the door
Asks for identification
Two-hundred or more
Joyfully join the occasion
And the walls of the room
Watch as they always do
But _____ here
Has ever seen _____ like
you

[Bridge]

I try to disappear
But I can feel you moving near me
In the atmosphere tonight

I take _____ round
And feel the ground begin to move
And catch you in the light

[Chorus]

I could be _____,
_____, or _____
Something, nothing, or everything
To you

[Verse 2]

Saw her on the floor
Under our feet in the motion
We don't set a time
We just kind of go
And it's slowing down
And the walls of the room
Probably don't have a clue
That _____ here
Has _____ better to do

[Bridge]

I try to disappear
But I can feel you moving near me
In the atmosphere tonight

I take _____ round
And feel the ground begin to move
And catch you in the light

[Chorus]

I could be _____,
_____, or _____
Something, nothing, or everything
To you

[Outro]

_____, nothing, or
everything
Something, _____, or
everything
Something, nothing, or

To you
