3 Read. Which things must you do? Put ✓ or X.

Giving advice

Preparing for a race

It is important to eat healthy food before the race – you must eat lots of fruit and vegetables. You can eat chocolate when you need energy.

You must drink water when you run. Carry a water bottle.

Wear shorts, a T-shirt and trainers, and wear a cap if it's sunny to avoid headaches.

Before the race, you need to train every day. Train with a friend, and always tell your parents where you are going.

But it is important to rest too, and you mustn't run if your feet or knees hurt.

rest ✓

drink water ____

wear jeans ____

train every day ____

run if your knees hurt ____

wear trainers ____

train with your parents ____

eat fruit and vegetables ____

eat chocolate ____
