Ordering Numbers

When we order numbers from the smallest number to the largest number (least to greatest), we say the numbers are in **ascending** order.

e.g. 13   46   78   89

Numbers written in **descending** order are ordered from largest to smallest (greatest to least).

e.g. 92   65   51   29   6

Order each group of numbers in ascending order (from least to greatest).

26   16   61   62

[   ]   [   ]   [   ]   [   ]

55   25   15   53

[   ]   [   ]   [   ]   [   ]

Order each group of numbers in descending order (from greatest to least).

12   21   32   23

[   ]   [   ]   [   ]   [   ]

81   15   37   89

[   ]   [   ]   [   ]   [   ]

Choose the larger number in each pair of numbers:

8   80   6   12
18   38   42   24
11   3   16   2
