How to Behave at a Party

We often attend birthday parties, weddings and other events. There are certain rules which we should follow there. Some of them are as follows :

- Always arrive for the event on time.
- When you arrive at the party, look for the host and greet him/her.
- Never comment on the decorations and arrangements at the party.
- Take only as much food as you require.
- Never get into a heated argument while conversing with someone.
- Never show disrespect for anyone, even for waiters.
- Always stand in the queue to get food.
- Always put glasses, plates, etc. at the assigned place.
- Never make fun of other people.
- Never gossip or speak ill about anyone.
- Always thank the host before leaving the party.
