Technology is changing every day. New technologies in banking, business, medicine, etc. are constantly appearing every day. It's important to stay up-to-date.

Criminal penalties can result in fines or jail time. Civil liability -or responsibility- means that you can be sued and forced to pay damages monetarily (paying money to the winner of the lawsuit).

Digital citizens have the right to privacy as long as they are not pretending to be someone else.

Normally, people are polite in face-to-face situations where they encounter strangers. Unfortunately, some individuals are rude or cruel on the Internet because of its anonymity.

You shouldn't use a false identity online.

You should treat others the way you want to be treated.

Schools should educate students in a new way so that they "learn to learn" new technologies.

You should be aware of current digital legislation.
