Subject: A great day

Hi Jim! Happy 2041! I'm emailing you from our driverless car ... that's right! No one is driving it. My dad is telling his new smartphone who to call and what to say. My mum is uploading some photos of a humanoid robot doing the gardening. Our drone took them! Our virtual assistant is going to find a film we will all like and we'll watch it in the car. It will also send a message to our intelligent home to turn the heating on. The house has already cleaned itself and my humanoid robot will be there to make dinner!

Social media is a lot better now. I can upload smells and tastes for my friends and they can tell me what they think!

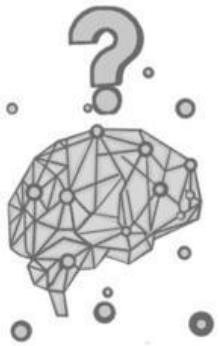

Speak soon,

Liz

1	Liz is driving a driverless car.	T / (F)
2	Her dad's smartphone will speak for him.	T / F
3	Liz's mum is uploading photos a drone took.	T / F
4	The intelligent home did all the housework.	T / F
5	The virtual assistant will eat dinner.	T / F
6	Liz's friends can comment on the smell of the food.	T / F

This week's tech exhibition was the best experience for our school! We had the chance to try many new devices and we **(1)** w i l l tell you all about them!

First of all, we tried the latest **(2)** _____ that can fly higher than the ones on sale at the moment. They are also able to take better photos and can be controlled from a longer distance.

Next, were sustainable construction materials like wool **(3)** _____ . So, houses **(4)** _____ ' _____ be bad for the environment in the future.

Another change that's about to come are devices that will be controlled by **(5)** _____ intelligence, such as fridges, washing machines and ovens. We **(6)** _____ ' _____ have to think about doing many chores, as computers will take care of them for us!

LIVEWORKSHEETS

Read and number.

I can't wait for the future to arrive! I'm sure everyone will have a drone and we'll be able to hold drone racing and other competitions! It will be fun! I also think that we will follow people more online and learn more about what they do every day and what they think. We'll do all our shopping on the internet and a virtual assistant will bring it to us. People will upload photos and videos like we do today, but I think we will also upload memories and feelings. That would be cool! Perhaps social media won't be as popular as they are today and people will find a better way to connect and meet others. And we will definitely live in intelligent homes, with our driverless car parked or floating just outside!

LIVEWORKSHEETS

Read and circle the correct words to complete the text.

This week's tech exhibition was the best experience for our school! We had the chance to try many new devices and materials and we **(1)** (will) / won't tell you all about them!

First of all, we tried the latest **(2)** ***humanoid robots / drones*** that can fly higher than the ones on sale at the moment. They are also able to take better photos and can be controlled from a longer distance.

Next, were sustainable construction materials like **(3)** ***wool bricks / concrete***. So houses **(4)** ***will / won't*** be bad for the environment in the future.

Another change that's about to come are devices that will be controlled by **(5)** ***artificial / humanoid*** intelligence, such as fridges, washing machines and ovens. We **(6)** ***'ll / won't*** have to think about doing many chores, as computers will take care of them for us. The future looks very exciting!

Read the sentences about the future. Change the sentences from positive to negative and from negative to positive.

1 I think we will meet friends.
I think we won't meet friends.

2 She thinks we'll drive cars.

3 They imagine we'll live in simple houses.

4 He imagines we won't use smartphones.

5 I believe we won't have social media.

6 We think we'll need to upload photos.

LIVEWORKSHEETS

Use the words in brackets to write sentences about the future.

1 I think we won't meet friends in real life. (I / think / not meet)

2 _____ cars. (she / think / not drive)

3 _____ in intelligent homes. (they / imagine / live)

4 _____ plastic smartphones. (he / imagine / not use)

5 _____ better social media. (I / believe / have)

6 _____ houses made of steel. (we / think / not build)

Order and write.

1 will / in / future / we / what / wear / ? / the
What will we wear in the future?

2 planet / ? / we / a / live / will / different / on
_____

3 ? / we / different / speak / languages / many / will
_____

4 will / where / ? / future / work / the / in / they
_____

5 in / ? / job / future / he / the / what / do / will
_____

6 sports / future / ? / the / we / in / play / will
_____

LIVEWORKSHEETS

Look at the answers and write questions.

1 What will we wear _____ in the future?
We'll wear self-cleaning clothes in the future.
