E. LISTENING

XIII **Work in pairs. Discuss with your partners about how an alien looks like. What do you think about their body parts? Does it have….? How many? How does it look like? Write your ideas in the space.**

Head: .....

Legs: .....

Neck: .....

Arms: .....

Eyes: .....

Fingers: .....

Noses: .....

Mouth: .....

Fur/ Feathers/ Hair: .....

XIV **1. Listen to a scientist talking about his imagination about how an alien looks like. Put a tick in the appropriate column.**

According to the scientist, how much likely does an alien have the following body parts?

Body parts	Of course	More likely	Less likely
Eyes			
Nose			
Mouth			
Legs			
Feathers			
Hair			
Fur			
Head			
Neck			
Arms			
Fingers			

2. Listen again. Decide if the following statements are true (T) or false (F).

According to the scientist,

1. Aliens may have more eyes than humans. .....
2. The nose of an alien must be in the centre of his face like humans. .....
3. Aliens might probably have the same number of legs as humans. .....
4. Fur usually goes with intelligence. .....
5. There is no need for an alien to have five fingers on each hand. .....
