How successful people spend their free time

When you finish a busy day at work, what do you do? Do you go home and play computer games or watch films? This is not what successful people do! Read about five different ways successful people spend their free time. These small things could change your life!

1 \_\_\_\_

Books help us understand the world. This is why successful people read a lot of them! When successful people read, they learn about new cultures and environments. This helps them get new ideas and learn to think in a different way. Reading also helps us improve our vocabulary, so we can communicate better with people around us.

2 \_\_\_\_

Physical activity is good for everyone, and successful people do this regularly. If we go swimming, go running or go to the gym, we get stronger and healthier. A good exercise routine also helps us to not feel stressed. It makes us feel good and look good. Successful people do exercise at least three times every week.

3 \_\_\_\_

You might think that successful people have to work all the time, but this is not true. Successful people enjoy improving their skills in other areas, too. A hobby can make us happy and it gives us a

break from work. Playing guitar in a band, learning how to dance or doing other kinds of activities can help us to relax. Hobbies can help us feel ready to start work the next day, with new ideas.

4 \_\_\_\_

Successful people often want to help the local community. For example, they give money to places that help poor people or they give a job to someone who needs one. Sometimes they work for free because it makes them feel happy. They think this is a good way to give something back to other people.

5 \_\_\_\_

For many people, it's normal to spend a lot of time at work. A job is important, but it isn't everything in life. Successful people know that spending time with friends and family is really important, too. We should go for dinner with friends or watch a film with our families. People can feel sad and lonely if they only think about themselves and their work. Our time with friends and family is as important as our time at work.

## V. LISTENING
